Step into the world

A multiplayer fantasy world in the classic MUD tradition, rebuilt for the browser — every room, character, and panel painted by hand, while the same world stays fully playable over plain telnet.

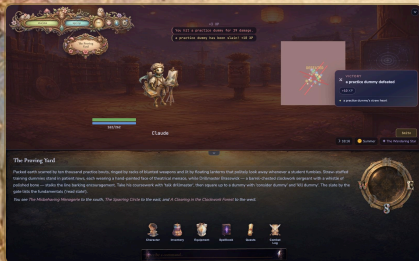

A painted room

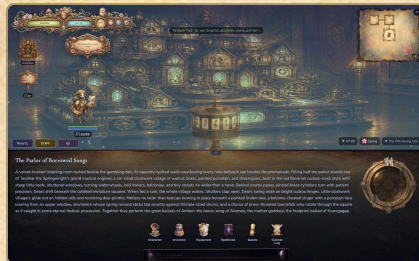

Branching NPC dialogue

Server-wide chat

Real-time combat

Music, games & more

A continent to explore

- Nine races & six classes, in a painted creation flow
- A 128-room Academy to learn the ropes
- Quests, crafting, housing, guilds, pets & PvP
- A pacifist “illumination” path for explorers
- Day/night, seasons, weather & live world events
- Plays in the browser — or over plain telnet
